# 1. Important General Safety Instructions

---

## General Hearing Safety

- To avoid hearing damage, limit the time you use the headphones at high volume and make sure you set the level to a safe level. The louder you play the volume the shorter the listening time is.

### **Please pay attention to these guidelines when using your wireless headset.**

- Listen at reasonable volumes for reasonable periods of time.
- Be careful so as not to adjust the volume so high you can't hear what is around you.
- Use caution or discontinue use in potentially hazardous situations.
- Excessive sound pressure from earphones or headphones can cause hearing loss over time.
- Using earphones with both ears covered whilst driving is not recommended and may even be illegal in some areas whilst driving.
- For your own safety, please avoid distortions from music or phone calls while in traffic or other potentially dangerous environments.

---

## General Information

### To avoid damage or malfunction

- Do not expose your earphones to excessive heat.
- Do not drop your earphones.
- Earphones should not be exposed to dripping or splashing.
- Do not submerge your earphones in water.
- Do not use cleaning agents containing alcohol ammonia, petrol or abrasives.
- If cleaning required please use soft, if necessary slightly dampened with a minimum amount of water or diluted mild soap, to clean the product.

### **Operating, storage temperatures and humidity.**

- Operate or store in a place where the temperature is between -15°C (5°F) and 55°C (131°F) - up to 90% relative humidity.

## 2. Your BE90 In Ear Monitors

---

Congratulations on your purchase of BE90 earphones and welcome to Lifted Productions! These professional standard in ear monitors have been designed to deliver excellent sound quality from the dual 10 mm patented dynamic Beryllium drivers with extended frequency up to 40 kHz.

These earphones are Hi-res ready with crisp highs and warm bass tones.

The highly polished rugged die cast metal housing has been designed to provide years of reliable and durable use.

Only the highest quality of materials and drivers have been used to manufacture these professional standard earphones.

You can visit our website for further products and more information at: [www.liftedproduction.com](http://www.liftedproduction.com)

### What's inside the box

- In-ear Monitors with MMCX interchangeable cable
- 2 sets of spare ear tips
- Quick Start Guide
- Hard Carrying Case

---

### Overview of your In-ear Monitors

These earphones are ergonomically designed and have been tested under extreme conditions to ensure your listening comfort for extended periods of time.

# 3. Getting Started

## Wearing your earphones

- The very first time fitting these IEMs to your ears may seem a bit strange but once used to it, you will soon forget you are even wearing them.

### Fitting Ear Tips

Roll the existing ear tip back and remove. Take a replacement ear tip from the packaging roll it back sliding it over the protruding ear piece. Make sure the fit is snug.

### Fitting your IEM the first time

Take the right hand ear piece and insert the entire tip into the ear carefully for a snug fit. Pull the memory wire over your ear as shown in the diagram below and repeat for the left ear. You can wear the cables behind your neck or in front, whatever is comfortable for you.

**Figure 1**

Make sure that the earpiece fits snugly into the ear.

### Wrap the memory wire

Ensure the earpiece fits snugly and comfortably into your ear, then wrap the memory wire around your ear as shown below, so its close to your ear.

**Figure 2**

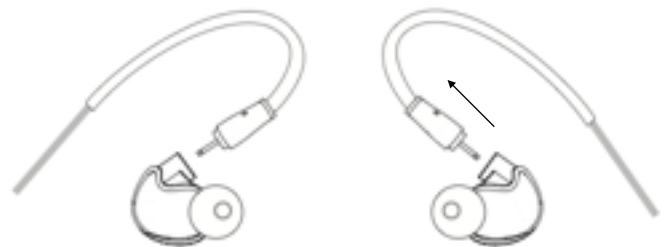

The memory portion of the wire wraps around your ear.

- The snug fit will ensure that the earphones are noise isolating.

### Interchangeable MMCX cables

The supplied cables are standard MMCX fitting and can be easily changed, or upgraded for higher end cables or Blue Tooth cables with MMCX connectors.

**Figure 3**

Carefully pull the cable away until it completely detaches from the ear piece. Attach the new cable making sure it 'clicks' into place. Repeat the process for the other side.

## 4. Technical Specifications

---

### Product technical details

These professional standard earphones have been manufactured using the highest quality materials with patented Beryllium dual drivers that have been tuned in our sound laboratory.

The extended frequency range to 40 kHz mean that these earphones work with Hi-resolution audio sound files to produce sharp highs and warm bass tones.

They come with fully interchangeable MMCX fit cables so that you can either change the cables when required or upgrade to high end audio cables or Bluetooth cables with MMCX connectors.

### Technical Specifications

Housing	Die-Cast polished metal casing
Driver Type	Dual 10mm patented Beryllium dynamic drivers
Frequency Response	20Hz to 40kHz (extended frequency response)
Hi-Res	Hi-resolution audio sound quality
Impedance	30 Ohms @ 1 Hz
Sensitivity	100dB +/- 3dB @ 1 Hz
Cables	Interchangeable MMCX cables
	Optional extra Bluetooth cable with MMCX
Operating Temperature	-5 C to + 50 C

- Specifications subject to change without notice.

## 5. Further Information

---

### About Lifted Productions

The Lifted Productions In-Ear Monitors type BE90 is a joint-collaboration project with Brand Nation Media of the USA for the development of a professional standard in-ear monitoring earphones of uncompromising quality.

---

### Care and Cleaning

Please do to remove from the ears or unplug by pulling on the cable. Always do so by grasping the plastic part of the earplug, or the earpiece itself.

If necessary, please clean the earphones with tiny amount of hydrogen peroxide on a cotton swab and clean ONLY the outside of the earphone.

Earths can be removed and cleaned in running water and allow them to fully dry out before resuming use.

---

### Limited Warranty

The condition of this warranty and the supplier's responsibilities under this warranty are limited as follows:

The warranty is non-transferrable and limited to the original purchases only. You must be able to prove the date of the original purchase with a dated receipt. The warranty becomes invalid if subject to physical abuse, improper installation, modification or repair by unauthorised third party. The supplier's responsibility shall be limited to the repair or replacement of the product at its sole discretion. Specifically exempted from the warranty are limited life consumable components subject to normal wear and tear, such as batteries, cables and other accessories. The supplier is not responsible for any failure resulting from accident, abuse, misuse, or unauthorised repair, or modification. Modification or repair of the product should only be carried out by authorised and qualified service centre or be returned to the manufacturer. This warranty gives you specific rights, you may also have other rights, which can vary under local laws.

---

### Declaration of Conformity

Lifted Productions (HK) Ltd, hereby declares that this product is certified according to the provisions of the R & TTE Directive (99/5/EC) which declares that this device is in compliance with the essential requirements of the Directive 1995/5/EC.

---

### Environmental Information

All unnecessary packaging has been omitted.

We have tried to make the packaging easy to separate into materials: cardboard (the box), tray (PET) and polythene (bags, protective foam sheet etc).

The product consists of material which can be recycled and reused is disassembled by a spliced company.

Please observe the local regulations regarding the disposal of packaging materials, exhausted batteries and old equipment.

Please respect the environment.
